# My First R Markdown

#### ranga4all1

### 4/20/2021

#### R Markdown

This is an R Markdown document. Markdown is a simple formatting syntax for authoring HTML, PDF, and MS Word documents. For more details on using R Markdown see http://rmarkdown.rstudio.com.

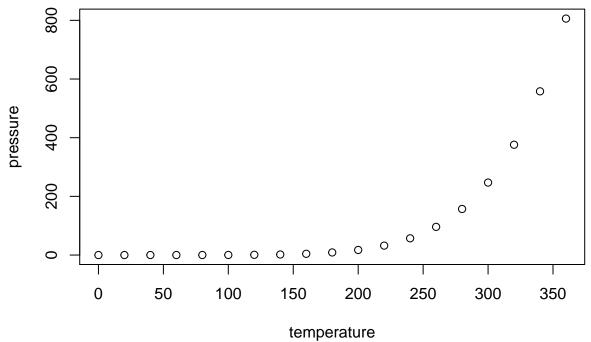

When you click the **Knit** button a document will be generated that includes both content as well as the output of any embedded R code chunks within the document. You can embed an R code chunk like this:

#### summary(cars)

```
##
        speed
                         dist
                               2.00
##
           : 4.0
                    Min.
                            :
    Min.
    1st Qu.:12.0
                    1st Qu.: 26.00
##
##
    Median:15.0
                    Median: 36.00
##
    Mean
            :15.4
                    Mean
                            : 42.98
    3rd Qu.:19.0
                    3rd Qu.: 56.00
##
            :25.0
    Max.
                    Max.
                            :120.00
```

#### **Including Plots**

You can also embed plots, for example:

Note that the echo = FALSE parameter was added to the code chunk to prevent printing of the R code that generated the plot.

## Languages for Data Science

Here are most commonly used languages for  $data\ science$ 

- R
- Python
- $\bullet$  SQL
- Swift

#### Code chunk1

```
print("Hello World!")
```

## [1] "Hello World!"

#### Code chunk2

```
print("Hello again World!")
```

## [1] "Hello again World!"
